## NEC's Convenient, Secure & Free Billing Programs

Sign up for one or all of NEC's convenient and secure billing programs today! Try them RISK FREE! You can cancel your enrollment in any of the programs at any time! You really have nothing to lose!

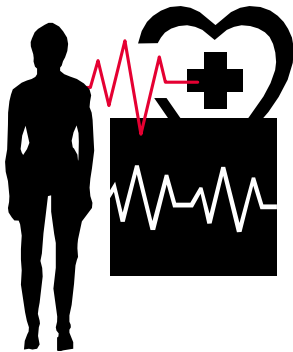

### Level Billing

If you sign up for this program, you will be billed each month for the average of your most recent 12 months. This prevents those widely fluctuating bills for summer cooling or winter heating that wreak havoc on your family budget. (Note: You must have been with NEC for at least a year to be eligible for this program)

### Bank Draft

If you sign up for this program, you will receive your monthly bill as usual. **However**, with bank draft, the amount of the bill is electronically transferred on the bill's due date. **No payments to mail!** Bank draft is safe and secure. You also save checks, stamps, envelopes -- and time! **AND**, if you need to stop an automatic draft once you've signed up, just let us know three or more business days before your next due date. (Note: A voided check must be submitted with this form for application to this program.)

### Operation Round Up

This is a strictly voluntary program for NEC distribution members. Members' bills are "rounded up" to the next dollar. All of the additional change goes to a non-profit fund developed by NEC called Nueces Charities, Inc. The money adds up each year and Nueces Charities (on behalf of all of the participating NEC members) gives a check(s) to projects like HALO-Flight air ambulance service. HALO-Flight serves NEC's entire service area and many members have had a first-hand, life-saving experience with HALO-Flight. We encourage all NEC members to volunteer to share their dimes and pennies for this very worthy cause. This will never exceed 99 cents per month, and averages \$6 per year. **Members who DO NOT want to participate must contact NEC.**
