GET NOMINATED. BE RECOGNIZED.

We want YOU to nominate your favorite high school lineman!

From August to December, NEC will spotlight a "Lineman of the Month", one with a hardhat and one with a helmet.

Visit our website www.nueceselectric.org

Can be nominated by parents, coaches, teachers, or friends.

DID YOU KNOW?

BEAT THE PEAK CONSERVATION VS. CONSERVATION APPEAL FROM ERCOT

BEAT THE PEAK CONSERVATION Conservation is requested during high-demand hours from 3:00 p.m. to 7:00 p.m. These alerts are issued by NEC to help reduce costs during summer peak power usage times for our members. It's important to note that these conservation alerts are not due to a lack of resources.

CONSERVATION APPEAL FROM ERCOT, asks Texans and Texas businesses to voluntarily conserve electricity to help reduce the demand on our natural resources. These alerts aim to ease strain on the system and protect resources. It's much easier for everyone to conserve during peak hours than to risk rotating outages.
