OPERATION ROUND UP: WHERE EVERY PENNY COUNTS!

Did you know...

that becoming an NEC member changes lives? Your membership supports local charities through Operation Round Up, where members **round up** their electric bills to the next dollar. These contributions fund Nueces Electric Charities, Inc., with annual donations per member never exceeding \$6. Thank you for making NEC great!

On June 11, 2025, we were honored to host the future leaders from The Right Start Program for an interactive fun day at our facility. Through a unique scavenger hunt, games and a safety demonstration they learned all about the electric cooperative industry.

The Right Start is part of the FOCUS Foundation and has expanded to both Texas A&M Corpus Christi and Texas A&M Kingsville. This program offers physical activity and education through experience. Learn more about them by scanning the QR code above.

DID YOU KNOW?

RESTORATION ISN'T RANDOM—IT'S STRATEGIC!

Crews start with the biggest fixes first—like transmission lines and main feeders that power whole neighborhoods. Then they move to smaller lines and individual homes.

So if your power is still out, don't worry—you haven't been skipped. You're part of a step-by-step plan that helps restore power to the most people as quickly and safely as possible.
